About Us

www.safetyonefires.com

Fire safety is often overlooked until an incident occurs. Safety One Fire Services aims to proactively protect homes, offices, factories, schools, and commercial complexes before emergencies arise, rather than reacting after the fact.

We are a Jaipur-based fire safety and security company, a franchise of Safe Pro Group, operating since February 15, 2015. Initially focused on local fire safety, we have expanded over the past decade to become a trusted full-service provider for residential, corporate, industrial, and educational clients across Jaipur and greater Rajasthan.

Safety One Fire Services employs over 50 trained professionals who manage everything from extinguisher refills to designing and installing fire detection systems for large facilities. Their quick response and personal accountability define their service. Their consistent approach focuses on honest assessments, proper installations, and continuous support, emphasizing that fire safety is an ongoing relationship involving inspections, maintenance, and 24/7 accessibility.

OUR MISSION

To make fire safety accessible, dependable, and fully compliant for every property we serve — regardless of size, budget, or industry.

OUR PROMISE

Quick response. Certified equipment.
Transparent, economical service. Every time.

The Values That Guide Us

- Safety First, Always — every recommendation we make is weighed against one question: does this genuinely make the property safer?
- Honest Assessments — we do not oversell equipment you do not need, and we do not undersell protection you do.
- Timely Delivery — from the first site visit to the final installation, we work to the timelines we commit to.
- Long-Term Accountability — our relationship with a client does not end at installation; it continues through every refill, inspection, and emergency call that follows.

10+ Years of Trust in Jaipur

OUR JOURNEY

Since our founding, Safety One Fire Services has grown steadily by prioritising reliability over rapid expansion. Every client relationship we have built has come through referrals, repeat business, and word of mouth from housing societies, business owners, and institutions who trust us to show up and do the job right. The numbers below reflect that decade of consistent, on-ground work.

Why Clients Choose Safety One

Dedicated to Saving Lives

Every product we sell and every service call we take is oriented around one goal: protecting people first, and property second. Our technicians are trained not just to install equipment, but to explain how and why it works, so that the people living or working on your premises are genuinely prepared, not just technically compliant.

24/7 Available to Save

Fire emergencies do not check business hours, and neither do we. Our helpline is staffed around the clock, and our response teams are structured in shifts specifically so that a call at midnight receives the same urgency as a call at midday.

Certified, Compliant Equipment

Every extinguisher, hydrant component, alarm panel, and detector we supply is checked, tested, and approved to meet relevant safety standards. That means when a fire officer, insurer, or auditor visits your premises, your documentation and your equipment are already in order.

Local Expertise, Franchise-Backed Standards

As part of the Safe Pro Group, we combine the responsiveness of a local Jaipur team with the processes, training, and quality benchmarks of a larger, established network giving you both accessibility and assurance.

Trained, Experienced Workforce

Our 50-plus-strong team includes dedicated technicians, safety consultants, and support staff, each trained specifically in fire safety systems rather than general maintenance work. This specialisation means faster diagnosis, correct installation the first time, and fewer follow-up visits.

Transparent, Economical Pricing

We provide clear, itemised proposals before any work begins, with no hidden charges added later. Clients consistently describe us as trustworthy and economical—a balance we work hard to maintain, because fire safety should never be priced out of reach.

SERVICE 01

FIRE EXTINGUISHER SERVICES

The right extinguisher, in the right place, ready when it matters.

A fire extinguisher only helps if it's the correct type, properly placed, and your team knows how to use it. We handle the full process - assessment, supply, installation, and training.

WHAT WE OFFER

RISK ASSESMENT

Identify the right extinguisher class for your property

CERTIFIED SUPPLY

ABC, CO2, Foam, Water & Clean Agent types

CORRECT PLACEMENT

Installed per fire safety norms

STAFF TRAINING

Hands-on usage demonstrations

AMC AVAILABLE

Annual maintenance contracts

WHO IT'S FOR

Homes, offices, retail shops, factories, hospitals, schools, and housing societies anywhere people are present and a fire risk exists.

FIRE EXTINGUISHER REFILLING

A discharged extinguisher offers zero protection.

We keep yours ready.

Extinguishers lose pressure and effectiveness over time, even if never used. Regular refilling and inspection is the only way to guarantee yours will actually work when needed.

WHAT WE OFFER

-  **Timely refilling**
- all extinguisher types
-  **Full cylinder inspection**
& pressure checks
-  **On-site refilling**
at your premises
-  **Live usage demonstrations**
for staff
-  **Reminder-based**
scheduling
-  **Proper tagging**
& documentation

“

"Very professional and satisfied with the service."

—Prema Saluja

”

WATCH FOR THESE SIGNS

-  **Gauge needle**
outside the green zone
-  **Corrosion, dents,**
or visible damage
-  **Missing pin**
or tamper seal
-  **Expired or missing**
inspection tag

FIRE HYDRANT DEALER SERVICES

A strong first line of defence for larger properties.

For factories, warehouses, and large campuses, a well-designed hydrant network is often what contains a fire before it spreads. As a trusted dealer, we handle design, supply, and installation end-to-end.

WHAT WE OFFER

DESIGN CONSULTATION
Hydrant network planned to your property

GENUINE EQUIPMENT
Valves, hose reels, landing valves & pipework

PROFESSIONAL INSTALL
Integrated with your water supply system

ROUTINE TESTING
Pressure, flow & valve checks

COMPLIANCE SUPPORT
Documentation for NOC & audits

WHO IT'S FOR

Factories, large offices, warehouses, shopping malls, and institutional campuses with significant built-up area.

FIRE ALARM & SMOKE ALARM SYSTEMS

Early detection buys the time you need to act.

Most fire damage happens because a fire went unnoticed too long, not because it started. A working alarm system catches it early - while a quick response is still enough.

FIRE ALARM SYSTEMS

Conventional & addressable alarm panels

Smoke, heat & flame detectors

Manual call points & sounders

Building management system integration

Scheduled testing & maintenance

SMOKE ALARMS

Fast, reliable detection for homes & offices - with coverage planned to your floor layout.

WHO IT'S FOR

Homes, offices, hotels, hospitals & educational institutions.

HOMES

OFFICES

HOTELS

HOSPITALS

EDUCATIONAL INSTITUTIONS

CERTIFICATION & ON-SITE FIRE STATIONS

Compliance you can prove.

Response you can count on.

Certification confirms your fire protection genuinely works, not just that paperwork is in order. For larger sites, an on-site fire station adds a rapid-response layer beyond passive equipment.

FIRE SAFETY STATEMENTS & CERTIFICATION

- Full inspection of installed equipment
- Certified statements issued promptly
- Documentation for licensing & insurance
- Guidance on closing compliance gaps

EQUIPPED FIRE STATIONS

- Rapid-response infrastructure on-site
- Trained personnel coordination
- Custom setup by facility size & risk

FULL
INSPECTION

Of installed
equipment

CERTIFIED
STATEMENTS

Issued
promptly

DOCUMENTATION

For
licensing &
insurance

ON-SITE
FIRE STATION

Rapid-response
layer on-site

What Our Clients Say

“ Best fire service provider in whole Jaipur. Trustable and economic friendly.”

- Dr. Arvind Jaga PT

“ They help you at ground level to solve problems related to safety.”

-Anupma Sharma

“ Thank you Safety One — best service and timely delivery.”

- Gurdeep, Agent
